"One go on the light and sound relaxation system, and chills ran down my spine . . . Not only did I want the system for myself, but I was convinced it would transform the lives of my students and clients. I've been using the system ever since and have achieved astounding results with my clients. In fact, I have my own arsenal of testimonials to prove it! Do I recommend Dr. Porter's CVR and light and sound system? Absolutely! My advice to anyone reading this? Go for it!"
